Hon Daniel Andrews  
Victorian Premier  
By email

September 15, 2020

Dear Premier

We are writing to you regarding any financial incentives your state is providing or is considering providing to Qantas for the airline to carry out work, develop operations or move offices, including its headquarters.

As you will be aware Qantas has already received \$800 million from the Federal Government in taxpayers' subsidies, from the Jobkeeper Programme, designed to maintain the connection between workers and employers, and other aviation financial support. Despite this Qantas management announced three weeks ago it was outsourcing workers across its entire ground operations. This means Qantas management aims to never directly employ another baggage handlers, ramp worker or cabin cleaner. Instead it will contract out the work to operators which pay workers less. This includes Swissport, which has been exposed over safety and security breaches and which the Fair Work Commission confirmed in a case last year has been paying its workers below the award since 2012.

Unfortunately the Federal Government failed to set conditions for the public money which has already gone to Qantas. Now taxpayers will pay the double burden of providing financial supports to the airline while at the same time as seeing aviation Qantas jobs axed and outsourced. Recent media report show Qantas planned 10 years ago to kill off its ground operations, highlighting how the outsourcing is not linked to the pandemic.

We do not want to see Victoria make the same mistake as the Federal Government has. We note media reports today quoting your comments on a conversation you had yesterday with the Qantas CEO and your eagerness to see Qantas work move to Victoria.

We ask you to consider the many hundreds of Qantas, QGS and Jetstar workers at Melbourne and Avalon airports. Some have decades of skills and experience which will be lost if the outsourcing proceeds. We ask you to also consider the Victorian travelling public who will be forced to experience lower standards in service and safety should the Qantas work be outsourced to the likes of Swissport.

We are therefore asking you to ensure that any public financial incentives provided by your state to Qantas carries the following conditions:

- That Qantas ensures fair labour standards throughout its supply chain, including any contracted workers in its supply chain. These standards must ensure that workers in the Qantas supply chain are paid the same rate for doing the same job.
- That Qantas commits to retaining its workers to carry out the jobs it needs done and agrees to shelve plans to outsource workers, including those in its ground operations.

Further, the Victorian Government Fair Jobs Code will be another opportunity to establish a set of principles and requirements for Qantas and any service providers who perform and complete the state-funded work to meet community expectations. The Fair Jobs Code is an important step in solving the significant problem of insecure work, however these standards must be applied to Qantas supply chains and/or its workforce.

We stand ready to discuss this with you further and will happily facilitate a meeting with Melbourne and Avalon airport workers from the Qantas group whose livelihoods are under threat. To facilitate this meeting, please ask your office to contact Mem Suleyman, Chief of Staff of the Transport Workers Union, Victorian & Tasmanian Branch on 0466471844 or [Mem.Suleyman@twu.asn.au](mailto:Mem.Suleyman@twu.asn.au)

We look forward to hearing from you shortly.

Yours sincerely,

John Berger  
Victoria & Tasmania Branch Secretary

Michael Kaine  
National Secretary
