

QGS BARGAINING UPDATE

This week your member-led bargaining team met with QGS management to discuss your new agreement. QGS is already trying to take your pay and conditions backwards, but your team will be fighting hard for our claims:

OUR CLAIMS

- ▶ **A fair pay increase** that keeps up with high costs of living, and backpay
- ▶ Superannuation to remain **1% above** the compulsory government contribution at all times
- ▶ Conversion of casuals to full-time after 6 months to protect your **job security**
- ▶ **A 2-year agreement** so we can fight for better as the industry recovers
- ▶ **Overtime** to apply to all work done by full-time and part-time employees outside ordinary hours on **any day or shift**
- ▶ Priority for overtime, shift extensions and weekend shifts given to **permanent employees** above casuals or labour hire

WHAT QGS SAYS

- ✗ The TWU log of claims would "restrict flexibility" and not allow the business to remain competitive.

THE TRUTH

- ▶ **Nothing in the TWU's log of claims would restrict flexibility or competitiveness.** QGS is just unwilling to pay you as per the Award, and believes any competitive edge needs to come from your pockets.

WHAT HAPPENS NEXT?

- ▶ **We will provide further bargaining updates** as soon as we have them
- ▶ **Now is the time to join. Only by standing together can we win a fair agreement. [Click here to join today.](#)**
