

VIRGIN APPLIES FOR MORE AUSTRALIA-INDONESIA FLIGHTS

In December 2023, Virgin applied to the International Air Services Commission to add **new international routes**:

WHAT DOES THIS MEAN?

- ▶  This is a positive announcement from Virgin that would mean **more direct, local jobs** if the application was successful. After consultation with delegates, the TWU will be supporting this application.
- ▶  Members' claim on Bain Capital in 2023 for good, secure jobs, has led to further commitments for the Australia-Indonesia work to be Australian-based crew.
- ▶  As Virgin continues to rebuild and expand, we will continue to hold the company to account and ensure it recognises your hard work that has brought Virgin back to profit and growth.

WORK NEEDS TO BE DONE

Delegates and members have raised issues regarding current flights between Australia and Indonesia.

We have flagged with Virgin that the company needs to work with.

- ! TWU Cabin Crew delegates and HSRs to ensure **Perth – Denpasar flights are a safe environment** to work in and possible improvements that can be made
- ! TWU pilot delegates to **improve accommodation options in Bali** and ensure protections around duty lengths, minimising multi-city pairings
- ! Both delegate groups to ensure that **adequate rest periods are rostered** so minimum rest periods are not encroached by network delays
