

ENDORSE THE CLAIM

AND HAVE YOUR VOICE HEARD!

Negotiations for your new Enterprise Agreement are fast approaching and all FedEx workers must prepare to **fight for safe, well-paid and decent jobs.**

To do this, we must put an end to FedEx's attacks on conditions – like failing to ensure pay keeps up with the cost-of-living and outsourcing jobs to gig worker 'DSC Contractors' paid below min wage.

The TWU has surveyed union members around the country and compared your agreement to the union's industry standards to help decide what we should fight for at FedEx in 2024.
