

RSE THE CLA

Negotiations for your new Enterprise Agreement is approaching. All StarTrack workers must prepare to fight for secure, wellpaid and decent jobs.

To do this, we must put an end to StarTrack outsourcing jobs to Australia Post contractors and 'white vans', a direct attack on our job security. The TWU has surveyed union members around the country and compared your agreement to the union's industry standards to help decide what we should fight for at StarTrack in 2024.
