

For too long, commissionaires at QGS have experienced inferior work conditions compared to their colleagues at QAL for doing the same job.

TWU members are changing that.

WE'VE FILED A SAME JOB SAME PAY APPLICATION

- TWU members fought for Same Job Same Pay laws to tackle Qantas' strategy of **paying people less to do the same job**

- We've used these laws in Qantas Freight and Jetstar cabin crew to improve pay and job security for thousands of workers
- **Now we've filed an application to lift QGS commissionaires' pay in line with QAL workers**

WHAT HAPPENS NOW

- We'll keep you updated on the progress of the applications
- With bargaining commencing in freight, we're pushing to consolidate the agreements and ensure Same Job Same Pay through the course of negotiations
- Meanwhile, with members below and above the wing we're campaigning for a Safe and Secure Skies Commission to improve pay and conditions for **all** aviation workers
