

Last year we filed Same Job Same Pay applications at Qantas Freight to start lifting pay and conditions for all freight workers.

But Qantas is using this to reduce hours of QGS workers—we're pushing back.

WHAT'S HAPPENING

- We reached an agreement with Qantas to increase the pay of labour hire workers, an important first step in stopping Qantas from undercutting your work and engaging in exploitative outsourcing practices
- **But Qantas is using this Same Job Same Pay order to reduce QGS hours. This is unacceptable**

WE'VE LODGED A DISPUTE

We've filed a dispute in the Fair Work Commission calling on Qantas to return fair hours to QGS workers, and will keep you updated on its progress.

BARGAINING TO LIFT STANDARDS

Bargaining at QGS has now kicked off, with hundreds of you having your say on what needs to change. We've been in discussions with Qantas on a national agreement, insourcing work, and fixing classifications - and will report back with more.
