

Swissport Roster Notice Dispute: What you need to know

Thanks to your efforts, members have told us they are not receiving their rosters from Swissport, or any updates to them, until the very last minute.

Here's just some of what you had to say:

"Even when they do give us our rosters, they're often changed without any communication or notice ... we're expected to constantly check our electronic rosters."

"It's often a shift on a day that you thought you were off."

Know your rights

Under the agreement with Swissport, they are required to provide rosters at least two weeks in advance.

Time for Swissport to act

The clock is ticking. We've given a deadline for Swissport to step up and do right by their staff. Even though they aren't budging, we're prepared to take this to the Fair Work Commission.

Strength in numbers

We're ready to take the fight to Swissport but we need as many of you as possible to put the pressure on. If you or anyone you know is not a member, sign up now.
