

I SUPPORT FAIR PAY *for* DELIVERY WORKERS

After years of pressure, UberEATS and DoorDash have agreed to TWU members' application to improve the pay and conditions for all delivery workers without limiting their flexibility.

But our fight is far from over.

We won't get better pay until the Fair Work Commission approves the agreement – and right now, other delivery platforms and some big business groups are trying really hard to stop it.

**THAT'S WHY YOUR VOICE
MATTERS NOW.**

Why you must sign the Petition:

- ✔ Makes it harder for other platforms to water down the deal.
- ✔ Makes it harder for big business to block it.
- ✔ Makes a stronger case for these rights to become law soon.

What's at stake for delivery workers under this agreement?

Fair pay

Improved hourly rates:

- Bicycle/e-biks/e-scooter: **\$31.30/hr**
- Combustion motorcycle/scooter: **31.50/hr**
- Motor vehicle (up to 1 tonne): **\$32/hr**

Companies would have to top you up to at least this amount if you fall under it. Depending on peak times and other factors, **you can still earn over this amount.**

Pay transparency

Key information about the job you receive – **pickup and delivery location, delivery details, minimum fee, estimated time, and whether bulky items or alcohol are involved.**

A voice at work

Feedback forums and union representation rights for workers **so they can have a say in decisions that impact them.**

Insurance

Personal accident insurance that provides reasonable level of cover to all delivery workers.

Signing this agreement is just the start.

With more delivery workers standing together, we can keep building on these rights to make the gig industry safer and fairer for all workers.
