Airservices Australia: Union Representation Survey

In 2024, Civil Air applied to the Fair Work Commission (**FWC**) for orders about 2 key matters.

1. Whether air traffic controllers are eligible to join the TWU.
2. An order sought by Civil Air to exclude the TWU from representing air traffic controllers (**ATCs**) even if TWU rules allow such representation.

On 6 March 2026, the Full Bench of the FWC handed down its first judgment confirming that ATCs are eligible to join the TWU.

The case is not over and now proceeds to the second element of Civil Air's application - should the TWU be excluded from being able to represent ATCs?

If Civil Air's application succeeds, the TWU will be excluded from representing you.

In deciding this question, the Commission must consider the views of employees.

This survey seeks to obtain your views.

Question:

Do you want the option of joining the TWU now or in the future?

Yes No
